

Nightlight® Christian Adoptions

International Adoption Program Description

Nigeria

GENERAL INFORMATION

Nightlight's Nigeria program began in 2016. Nigeria is located in West Africa and is the most populous country in Africa. For this reason, it is often referred to as the "Giant of Africa". The capital of Nigeria is Abuja and the largest city is Lagos. The fees for an adoption from Nigeria are reasonable, and we estimate that the process will take approximately 1 ½-2 years from application to completion depending upon the type of child you are seeking to adopt.

Nightlight Christian Adoptions has partnered with a local Non-governmental organization (NGO) in Nigeria known as Morgan Hill Children Foundation. Their mission is to promote literacy, education, care, support, and to empower children. Children in Nigeria are often abandoned due to poverty related to social problems and the parents' illnesses. Nightlight is committed to helping families prepare for the adoption of children from Nigeria by providing educational information on possible developmental delays and health issues.

The following websites are a useful place to start for reading more about Nigeria adoption and the country:

CHILDREN AVAILABLE

There are children 2-15 years old available in Nigeria. Children that are 2-5 years old often have some minor identified special need(s) and children that are 5+ years old do not. There are however, children also available that do have more significant identified special need(s) of all ages. The wait time will be the longest for healthy children under the age of 5 years old. Children living in poverty and raised in institutional care often have both developmental and emotional needs. There are also children available for adoption that have minor and correctable to moderate and severe special needs. Children who would otherwise have little hope for a future can have a better life with the emotional and physical security that a loving family can offer, along with the availability of excellent medical care in the United States. There are also sibling groups available for adoption.

ELIGIBILITY TO ADOPT

Married over 25 years and singles over age 35 old may adopt from Nigeria. Adoptive parents must be at least 25 years older than the child they wish to adopt and singles may only adopt a child of the same gender as the adoptive parent. Certain factors could keep you from adopting in general or from Nigeria in particular, as each country has its own rules as to who can adopt. Before applying, please consult with Nightlight regarding any sensitive issues that may apply to you, such as a divorce, a mental health issue, or a criminal history.

PROCESS

1. Complete an application to Nightlight Christian Adoptions.
2. Apply to Nigeria's Ministry of Youth & Social Development
3. Begin your **adoption home study** and submit **form I-600A** to CIS.
4. Begin to assemble your **dossier**. We will give you detailed instructions.
5. Once CIS has approved your adoption home study, you will receive your **I-171H pre-approval notice**.
6. Once your CIS approval has been received and a child is available for you, you will receive a referral of a child in Nigeria.
7. Complete official referral review with Nightlight's Social Services Department
8. Once you have accepted a match of a child, your **dossier** will be delivered to the Morgan Hill in Nigeria who will add the child's paperwork to your dossier and file with the Ministry for approval.

9. You will receive permission to travel and go to Nigeria for the bonding and court period. When it is time for you to book your travel, you will have two options to choose from:
 - a. The first option is that you travel to Nigeria, complete the bonding and court period which is about 6 weeks and then remain in Nigeria until your child's visa is issued. We are currently seeing wait times of 6+ months for visas to be issued and have no specific time frame of how long it will take the Embassy to issue your child's visa.
 - b. The other option is to travel to Nigeria, complete the 6 weeks which includes the bonding and court period (if married, both parents must be present during the bonding and court period), and then once you have been through court and the child is legally yours, you can then choose to take your child back to the orphanage for care and protection while you go back home to the US to await the visa appointment. Once you have notice of your child's visa appointment being scheduled, you will then go back in country to pick them up which is a trip of 2-3 weeks and only requires one parent to travel.
10. During your second trip (2-3 weeks) or at the end of your first trip (if you stay in country), you will Apply for your child's passport, Embassy doctor appointment, visa appointment at the US embassy and to bring your child home! (Some families choose to do two trips but both parents must go for the beginning of the bonding period and be present for court.)

TRAVEL & ADOPTION

You receive a referral of a child from Nightlight Christian Adoptions. The referral will include a photo, brief social history of the child, the current health and development of the child, and lab test results for HIV, Hepatitis B & C, Sickle cell, Syphilis and TB. We highly recommend that you have this information reviewed by a doctor who specializes in international adoption before you make a decision. Once you decide to accept a referral, you will be considered "matched" with the child. Your dossier will then be sent to Nigeria to Morgan Hill. The attorney will put together information on the child's file and add this information to your dossier to file with the Ministry and the court. Once you receive permission to travel from the Ministry, you will then decide if you will be making one or two trips to Nigeria as discussed above. Once you have decided between these options, you will then travel to Nigeria for the socialization period which is the bonding and court period that is 6 weeks long. After the adoption is finalized in the court then you will file the I600 with USCIS to apply for the child's visa. During this process the Embassy in Lagos performs the I604 investigation which is part of the visa process. This I604 investigation can take several months and there is little communication from the Embassy about your case during this time. Once the case is approved you will return back to Nigeria to complete the last steps and obtain the visa for the child, or if you remained in country you will schedule your visa appointment.

The in-country stay gives you time to visit and live with your child daily and to begin the bonding process. It is amazing to see how children change while their parents are there visiting with them. The bonding process is very important, and being in the country allows your child to transition from being in an orphanage to being with you, his/her new family.

POSTADOPTION

Within 30 days of your arrival home, you must have a home visit by your home study provider. This one-month social worker report is required by Morgan Hill and we will be sending them this one-month report along with 6-8 updated photos of your child. If your child comes to the U.S. on an IR3 or IH3 visa, their Certificate of Citizenship should be mailed to them. Nigeria also requires reports to be sent to the ministry each year until the child turns 18 years old. The one-month report, first year report and second year report from your child being home, needs to be completed by a social worker. After you are home for 2 years you can begin self-reporting on the child until they turn 18 years old. All reports need to include 6-8 updated photos of your child with at least one photo with both parents which Nightlight will mail to Nigeria. These reports include your child's developmental progress and pictures. This is a very serious commitment; Nightlight is committed to showing the Nigerian government and birth families that children adopted by US citizens are healthy and well cared for. Nigeria has also informed us that The Ministry of Youth and Social Development will no longer send us child referrals should families not comply with Post Adoption Report Requirements so this is a very important requirement for all families to complete. Therefore, Nightlight charges a fee to monitor and process these post placement reports and also requires families to pay for the cost of the post placement reports in advance. Shipping costs for the post adoption reports to be sent to Nigeria until the child is 18 years old is \$1600 which will be collected prior to the family traveling to pick up their child.

COSTS

The program fee for a Nigeria adoption is \$16,700. Additional estimated expenses of \$25,795 – \$38,995 will bring the total cost to approximately \$42,495 – \$55,695. In addition, your out-of-pocket expenses may further be reduced if you receive scholarships or other employer-provided adoption benefits. For additional fee information, please see Exhibit A.

The cost of operating an international adoption program is substantial and increasing with the additional compliance requirements under the Hague Convention on Inter-country Adoption. The nature of international adoption makes it impossible to predict the exact costs you will incur, but we believe the estimates above are realistic. Although we strive to maintain a predictable fee schedule, unexpected increase in our costs may necessitate an increase in fees. Therefore, fees may be increased upon 90 day notice. Program fees are paid in phases and are non-refundable. Nightlight establishes a budget for costs each year based on the number of adoptions it estimates completing, as well as revenue from grants and donations. Based on these estimates, we establish program fees to cover the costs of attorneys, facilitators, social workers, insurance, and other costs we incur. Of course it would be prohibitive to allocate all of the costs (payroll, rent, insurance, supplies, travel, etc) to one adoption in one program.

A late fee of 12% annual (1% monthly) will be assessed for fees more than 30 days past due.
