NIGHTLIGHT PRELIMINARY ON-LINE APPLICATION

Thank you for considering an adoption with Nightlight Christian Adoptions. We have many adoption programs: embryo, domestic, and international. It is most likely we have a program in which there is a child who needs you as parents.

Beginning the adoption process may feel overwhelming, and you may believe that you do not even know where to start. We want to help you decide on the best program for you and your child.

Many families who have been undergoing infertility treatment find that they are good candidates for embryo adoption. In this program, you can experience a pregnancy. This is one of the most affordable of all the adoption programs.

If you are seeking to adopt an infant, you will want to consider the domestic adoption program; there are now more opportunities to be matched with a birthmother because there are more birthparents looking to adoption as the life-affirming answer to unplanned pregnancies. The recent economic situation our nation is facing may be increasing the number of children available for adoption but decreasing the number of available families.

If you desire to adopt internationally, you must meet certain basic standards as well as the policies of the child's country. Do not be discouraged if you do not meet a country's specific requirements. Most likely there is another international program for you.

Perhaps you are not sure what type of adoption is best for you. By completing this form, we can help you find the adoption route that is best for you and the child you seek to add to your family.

We at Nightlight are very committed to *Children in His Image*—a program for special children who are older or have special needs. Not everyone is called to adopt such a special needs child. But there are many older children and children with medical issues in need of good, loving homes. We want to make sure that we do our best to find well-qualified parents so that more children who would perish in their own countries can find

loving families. That is why we ask about the type of special needs you would consider. Do not feel that we are trying to stretch you beyond your abilities to parent a child with special needs. Do not feel guilty if you believe you are not called or prepared to adopt a child with certain special needs. We want to work with you in helping you to be matched with the child God has for you. There are also many younger and healthier children available for adoption. Are you open to what God has for you?

If you are interested in adopting a child with special needs—especially through the China program—then you will also want to complete the *Children in His Image* form—indicating more specifically the types of special needs of a child that we can present to you.

Regardless of the adoption program you choose—embryo, domestic, or international-Nightlight has a special scholarship program for families wanting to adopt children for whom there are fewer waiting families.

This is a preliminary application *only*, and before becoming a part of the Nightlight family, you will need to complete the full application. In completing this preliminary form and sending it to us, you agree that the information presented, to the best of your knowledge, is true and accurate. We understand that in speaking with an adoption or medical professional, you may decide that the type of child you are interested in adopting may not match what is initially indicated on this form.

Someone from our office will contact you within the same week of receipt of your online application. We at Nightlight wish you God's richest blessings as you seek to build your family in His time.
