

Post Adoption Reports: ETHIOPIA

Nightlight acquired the files for families that adopted from Ethiopia through Children's Hope International. Ethiopia requires self-reports annually until the child is 18 years old. Families will need to complete the self-report form and submit it directly to the Ethiopian Embassy along with a collage of photos. Submission instructions are below.

Requirement timeline summary:

Reports completed by a post adoption provider agency – Not required

Self-reporting: Annual until 18 years old

Report Requirements:

Complete the self-report form in Nightlight's [Family Portal](#). Once you log-in (or set up an account) using your email and password (or ask our system to reset your password), please click on Post Adoption Reports in the sidebar menu. You can scroll down to your current self-report and click on the green edit pencil to complete the questionnaire online. If you have multiple cases in our system, you may have to change between them to find where your child's self-report is listed.

If there are not available self-reports, please contact Heather Sloan at heather@nightlight.org to adjust the settings.

Please save the final page as a PDF to be submitted electronically to the Ethiopian Embassy.

Photograph Requirements:

6-10 recent, color photos are required, some of which should include the adopted child with parent(s). Arrange a collage on 1-2 pages in a pdf and submit this along with your report.

Post Adoption Report Submission:

Your report and photo collage should be submitted to the Ethiopian Embassy by email at consular@ethiopianembassy.org.
