

50 BENEFITS

Beginnings

1 Snowflakes is a division of Nightlight Christian Adoptions, which has been providing adoption services for 65 years.

Established in 1997, the Snowflakes Program is the oldest, largest, and most experienced embryo adoption program in the world.

3 Over 1,250 babies have been born to Snowflakes adoptive families!

2

Goals

Snowflakes applies the best practices of adoption in all our services.

4

5 Snowflakes assists families with remaining embryos in selecting an adoptive family, while giving adoptive families the opportunity to experience pregnancy & childbirth.

All embryos donations accepted, regardless of quality or quantity.

6

7 Snowflakes encourages direct communication between donating & adoptive families.

Program Policies

8 Our donating families follow the FDA requirements that regulate embryo donation.

Snowflakes adoptive families are assessed & educated through a home study process.

9

10 Snowflakes maintains a permanent record of all placements and adoptions.

Services

11 Legal services are offered in-house. No need to hire an attorney!

Third-party communication options available to families after contracts are finalized.

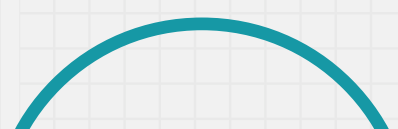

12

13 Snowflakes coordinates safe embryo transport between clinics & storage facilities.

The Snowflakes Family Evaluation, an embryo adoption specific home study, is offered to all adopters.

14

15 Snowflakes follows up with adoptive families & provides resources after the baby is born.

Timeline

16 Snowflakes provides a shorter timeline than domestic infant adoption.

Snowflakes has streamlined processes that ensure accurate & timely services. **17**

18 Processes are regularly reviewed & updated to reflect current best practices, which quicken your overall timeline!

Cost

Snowflakes has a single, all-inclusive program fee for services provided. **19**

20 Snowflakes is more cost effective than domestic infant adoption or a single cycle of IVF.

Snowflakes offers the services of a family resource specialist, who can assist adoptive families in applying for grants and fundraising. **21**

Matching

Snowflakes receives new sets of embryo placements every week. **22**

23 Matching is not done through a computer algorithm, but through preferences & family profiles.

Clients complete a pre-matching interview to discuss what they are looking for in a match. Both parties must agree to the match before moving forward. **24**

Adoptive families receive three generations of medical history from placing families. **25**

26 A frequent refrain from families about their match is that it was “perfect!”

There are always embryos available for matching! **27**

Clients

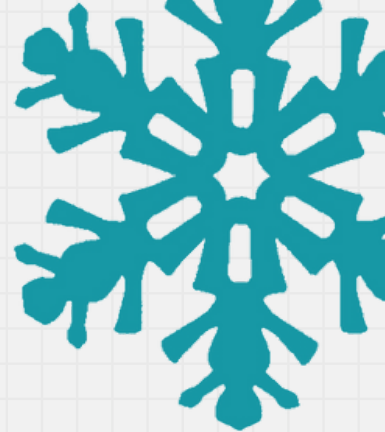

28 The time-tested Snowflakes processes provide both placing and adoptive families peace of mind.

All Snowflakes applications are considered without discrimination. **29**

30 Adoption can be paperwork intensive. Snowflakes will help identify & complete all necessary requirements to keep the process moving forward.

Snowflakes is able to provide services to a family in any state or country! **31**

Connections

32 Snowflakes maintains a permanent record of all placements and adoptions.

Snowflakes has established positive relationships with a network of referral fertility clinics throughout the U.S.

33

34 Many of Snowflakes referrals for placing & adoptive families come from their doctor and clinic!

Education

Snowflakes provides education to doctors, clinics, & other adoption agencies.

35

36 Snowflakes encourages open communication between families, assisting with relationship navigation.

Snowflakes provides assistance in finding viable options for all families who inquire about services.

37

Resources

Snowflakes provides resources & counseling to placing & adoptive families.

38

39 Snowflakes provides opportunities for clients to connect with other adoptive & placing families.

Snowflakes children are provided with an invitation to connect with other young Snowflakes adoptees.

40

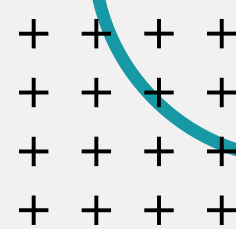

Clients have access to a library of written educational materials, as well as webinars & videos, free of charge.

41

42 Snowflakes facilitates a support group for placing parents and anyone who is considering donating their embryos for adoption, at no cost.

Families have the opportunity to share their stories on our website & various media outlets, if desired.

43

Our Team & Promise

44 Snowflakes receives high survey scores!

Snowflakes provides all who inquire with a balance of truth & hope.

45

46 Snowflakes provides clients a listening ear & a safe space to grieve.

The Snowflakes Team is consistently assessing to address clients' needs.

47

The Snowflakes Team is composed of people of integrity who care about providing high-quality service.

48

49 All services through Snowflakes are personal & timely.

Snowflakes prays for and with our families regularly.
